

Rapid Re-Housing Dashboard Methodology

- The timeframe for the dashboard is one year and is updated every quarter.
- Performance targets are consistent with the [Memorandum of Understanding](#) signed by All Home, United Way, King County, and the City of Seattle.
- The “Select Population” menu filters the results to show only data from RRH programs that are designated to serve Families, Single Adults, or Youth & Young Adults. The list of programs by population is included at the end of this document.

Measure	How Measure Is Calculated	Notes
On average, how long did households in a Rapid Re-Housing program spend searching for housing before moving in?	The average number of days between Enrollment Date and Residential Move-In Date for households with a Residential Move-In Date that falls during the timeframe.	
On average, how long did households receive assistance after moving into housing?	The average number of days between Residential Move-In Date and Exit Date for households with a Residential Move-In Date in HMIS and an Exit Date that falls during the timeframe.	<ul style="list-style-type: none"> • <i>Proxy measure for length of rental subsidy</i>
What percent of households who left a Rapid Re-Housing program gained permanent housing?	The proportion of households who exited any RRH program to permanent housing during the timeframe, divided by the total number who exited to any destination during that timeframe.	<ul style="list-style-type: none"> • <i>Permanent housing includes market rate housing, permanent supportive housing, and other subsidized housing</i>
What percent of households who gained permanent housing returned to homelessness within 6, 12, and 24 months?	The number of consenting households who exited a RRH program to permanent housing during the timeframe and returned to a shelter, transitional housing, RRH or PSH program within the following 6, 12, or 24 months, divided by the total number of consenting households who exited a RRH program to permanent housing during the timeframe.	<ul style="list-style-type: none"> • <i>Timeframe is 6 months earlier than the timeframe for the rest of the dashboard so all households exited the program at least 6 months ago.</i> • <i>Only includes households who consented to share their identifying information in HMIS.</i> • <i>These data cumulate over time, so the percent of returns may continue to grow as we approach the end of the return window.</i>

For questions about the methodology, contact Pear Moraras at King County’s Performance Measurement and Evaluation unit: nmoraras@kingcounty.gov.

Rapid Re-Housing Programs Included in Dashboard

Agency	Project Name	Population
Catholic Community Services (King County)	CCS - Rapid Re-Housing Pilot	Families
