Agenda Item	Action Steps and Follow Up
HMIS Updates	CEA workflow changes underway; 11 training sessions were hosted to support assessors in this transition to the new HUD CEA Data Standards. Working with King County and Public Health on COVID-19 support. Finalizing HIC and PIT reports/
Updates	Triina Van provided an overview of the recent information shared with the All Home Coordinating Board to maintain CoC governance priorities and requirements while responding to regional needs. System Performance Committee priorities in the following three months include: • Updated system performance dashboards review • System Performance data review • Point in Time Count results • Reviewing the Data Migration Plan (work completed by City of Seattle, King County and All Home staff to outline how to migrate data functions to KCRHA) • Reviewing any project/system performance impacts related to COVID Dina facilitated a conversation with members about on-the-ground impacts seen as a result of COVID. Themes included: • Redirecting staff to new projects/interventions • Shifting the way data and client information is collected (to paper) • Providers taking on more than originally contracted to do to help keep people safe and healthy • Supporting shelters to find creative solutions for social distancing measures
System Performance Dashboards	Pear Morares provided an overview of performance dashboards with the goal of making them live in May.
