Local Process: What you need to know [\[hide this\]](#)

Each year the U.S. Department of Housing and Urban Development (HUD) releases a Notice of Funding Availability (NOFA), signifying the beginning of a funding competition among Continua of Care (CoC) across the country. As part of the HUD application process, each CoC is required to hold a local funding process that rates and ranks all projects according to local criteria. This local review determines which project applications will be included in the consolidated application, along with their relative priority. This local review results in the priority listing.

Here's what you need to know:

1. We expect HUD to continue its emphasis on the following at both the individual program and overall system level:

- Quality data and demonstrated performance at both the program and system level;
- Use of Coordinated Entry for All to prioritize and refer people who most need assistance and ensure all programs are engaged and participating;
- Effective management of resources and reallocation where necessary from lower performing projects to the types of projects/practices most likely to reduce homelessness in the CoC; and
- Reducing barriers to program entry and utilizing a housing first approach to quickly move persons coming from streets or shelter to permanent housing.

2. We expect HUD to continue its Tiering strategy for FY2019. This requires the CoC to place projects in either Tier 1 or Tier 2 based on HUD established amounts announced with the NOFA when its released.

3. The Seattle King County CoC local funding process relies on Performance Data from HMIS and the HUD Annual Progress Report (APR) as well as project efficiency measures, such as grant spending, occupancy, timely reporting, etc. Shortly after May 1, 2019, HMIS data will be pulled for the operating period 4/1/18 to 3/31/19. This evaluation results in the preliminary CoC performance-based

rank order.

4. There are risks and opportunity to consider as you prepare for the upcoming 2019 NOFA. You are strongly urged to review your programs and your data and to keep the following in mind:

- Chronic Underspend: Projects that consistently underspend may want to voluntarily reduce their renewal grant.
- Better Fit with Other Resources: Projects may elect not to renew because other funding resources may present a better fit for the program model or Agency mission;
- Performance: Projects monitoring their own data may know they are unlikely to score well and want to consider future reallocation options.

Please let us know if you have questions or want to talk further about your project and plans for renewing. Use the "Contact Admin" tab or any of the ask-for-help links found throughout this application to reach us.

Your "McKinney" Team,

Kate Speltz (King County) and Eileen Denham (City of Seattle)

Be sure to use the 'Collaborators' section at the bottom of this page to include individuals from your organization who should have access to this Project application and/or should receive Project-specific notices throughout the Seattle King County local process. Agencies are responsible for ensuring that the correct individuals have access to and are set up to receive notifications from ZoomGrants.

*******IMPORTANT NOTICE FOR AGENCIES WITH MULTIPLE CoC PROJECTS:*******

As a reminder, your agency must create and submit one application per CoC Project. Since all applications must be created starting from a single (likely Agency-specific) ZoomGrants account, some of the information on this 'Summary' tab will auto-populate and automatically update throughout your open applications. Specifically:

Agency Level:

- Entries made in the 'Applicant Information', 'Organization Information', and 'Executive Director/CEO' sections will automatically update across all your applications. Do not provide Project-specific information in the above listed sections. (Reminder: see note above regarding Collaborators.)

Project Level:

- Entries made in the 'CoC Grant Project Name' and 'Collaborators' sections are unique to this Project's application and will not automatically update across your applications.

Instructions [Show/Hide](#)

- Please submit one CoC Renewal Intent Form for each CoC Program project eligible for renewal in the 2019 CoC Process.
- Completion of the 2019 Intent to Renew begins the 2019 CoC Program process and signals your intention regarding participation in the annual CoC Program funding process.
- Submission of this pre-application does not obligate you in any way, nor does it obligate All Home to include your project in the 2019 application to HUD.
- FAILURE TO SUBMIT this completed pre-application by the deadline will make your program ineligible for consideration in the community ranking process. This means that your project will NOT be ranked in the local priority rank order.

NOTE: The ZoomGrants system requires what they call "approval" of Phase 1: Intent to Renew submissions. In actuality, the "McKinney" team will simply review your submission, follow up if needed, and then mark as "approved" in time for you to access the full application. Do not be alarmed by ZoomGrants' stock language.
